## **RACING-TUNING** **SPARK PLUGS**

### **SILVER** **RACING**

The plug design meets the most extreme requirements for two-cycle kart engines, and the plugs are also suitable for two-cycle motocross engines

### **PREMIUM** **LGS**

Unique patented spark plugs. Round spark gap enables flashover of an extremely long surface spark along the whole perimeter of 360°.

### **PREMIUM** **ZC/ZS**

### **EXTRA** **TURBO** **RACING**

The spark gap is modified for perfect function even at high compression ratio of the engine.

Each of the sparks can flash along the whole perimeter of the auxiliary electrode (360°).
